

INSTALLATION of BOS-X

Contains BOS, DupSoft, BridgeTab; and a range of other programs

See important note on page 2 **IF YOU USE PAIRSSCORER**

BOS-X is only compatible with the Prim versions of BridgeSorter and Duplimate MkV. Do NOT install this version if you have a BridgeSorter with a number below 570, or a Duplimate Mk V with number 1700-1849, unless you have had your machine upgraded to Prim standard. Duplimates with number up to 1699 can use this version.

Contact support@bridgesorter.com or support@duplimate.com for details.

Re. DOWNLOAD AND INSTALLATION

The BOS package is comprehensive (186 MB) and you must let the download be completed before you start the installation. [Start download now.](#)

Note that you must prevent that Windows searches for updates (in some Windows versions you have to click the option *Skip looking for Windows updates* to prevent this).

CURRENT VERSIONS

Pack	Date	BOS	Dup	Deal	BSC	H.R.	BT Adm	BT	BS fw	BS dll
10.33	2022-11-10	10.05	10.10	1.0.1.14	3.0.111	1.17	1.48	1.85	136	4.2.0.7

FIRST TIME INSTALLATION

1. Locate the downloaded BOS.zip
2. Unzip it
3. Open the BOS package folder
4. Right-click the setup.exe to install as Administrator
5. Leave the defaults as is and accept all installations

See page 2 in the [Manual](#) if you have any problems with this. (A shortcut to the manual will be put on your Desktop by the installation program).

QUICK START INSTRUCTIONS

[BridgeSorter](#) Video directly: <https://youtu.be/Ma2ujqifBgo>

[Duplimate](#) Video directly: https://youtu.be/L_zmIff-884

(cont. on next page)

Demo mode

You can try all functions in the Demo event, except creating new deals, without a dealing machine. DupSoft will be unlocked when you duplicate a (1) deal with a BridgeSorter, Duplimate or HandyDup.

PAIRSCORER WARNING

The BOS-package contains Pairscorer 8, which uses another database format than previous versions. This means that it will overwrite/destroy (e.g. member) data entered in older versions.

You are therefore advised to **take backups of older versions' event files** (that you find in C:/BOS/Events) **BEFORE** you let BOS install the new **version of the program.**
