USE with

BOS-X is now compatible with the Prim versions of BridgeSorter and Duplimate MkV. Do NOT install this version if you have a BridgeSorter with a number below 370, or a Duplimate MkV with a number in the range 1700-1849, unless the machine has been upgraded to Prim standard. Duplimates with number up to 1699 can use this version.

DOWNLOAD AND INSTALLATION

1. Locate the downloaded BOS.zip
2. Unzip it
3. Open the BOS package folder
4. Right-click the setup to install as Administrator
5. Leave the defaults as is and accept all installations
6. ...

Manual and quick start instruction.

BridgeSorter video https://youtu.be/Ma?ufuifBoo
Duplimate video https://youtu.be/L_ZfiiU-884
Manual shortcut will be put on the Desktop during installation

Flash S...

Start the DEMO event. DupSoft will be unlocked when you duplicate a (1) deal with a dealing machine (E...S... m...la... up, ... nn... a ... rid... use...

You can try all functions in the Demo event, except creating new deals, without a dealing machine.

Contact support@bridgesorter.com or support@duplimate.com for details.

Please turn over (PTO)

BRIDGESORTER or DUPLIMATE 1700-1999
Memory integrity has to be switched off. Windows will otherwise block the camera. You need not worry too much about the warning that your computer is vulnerable unless you access shady web sites, in which case you should have it on.

⬜ Device security

Security that comes built into your device.

⬛ Core isolation

Core isolation helps keep your device safe by protecting the Windows kernel.

Memory integrity is off. Your device may be vulnerable.

Camera drivers
You should also disregard Windows' information on the Logitech Webcam camera and also Windows offers to search for drivers. There are no drivers for the Logitech camera that is compatible with Windows integrity. You will need a new machine, or at least a new camera, if you for some reason must have the Memory integrity switched on permanently.

Incompatible drivers

Resolving incompatibilities with these drivers will enable you to turn on Memory integrity.

Learn how to resolve problems with incompatible drivers
